Walt:

Captain Walker called and has asked that another name be added to the list you have for clearance. Commander, N.E. Peterson, Head of the Navy's Aero-Electronic Warfare Systems. If he is cleared, Admiral Ramage is planning to make him the Project Officer. This clearance should be handled as the others, i.e. inform Mr. Bissell whether or not they are eligible from a security standpoint to be made knowledgeable and Mr. Bissell will make the final decision.
